

**FilmArray Gastrointestinal Panel Price Quote**

Your MNGI physician has recommended a test called the FilmArray Gastrointestinal (GI) Panel. This panel tests for common gastrointestinal pathogens including viruses, bacteria and parasites that cause infectious diarrhea. This is a comprehensive test that includes 22 different tests.

The actual allowed amount (the amount of the billed charge deemed payable by an insurance plan) for each charge and the amount of your out-of-pocket expenses will depend on your particular insurance plan. It is important to check your individual policy and direct any questions to your insurer to determine coverage and your financial responsibility prior to receiving treatment.
