

5 THINGS YOU NEED TO KNOW ABOUT MNGI TELEHEALTH APPOINTMENTS

Schedule your Appointment

You can still call and schedule your telehealth visit the same way you would schedule any appointment or procedure at MNGI Digestive Health!
Call (612) 871-1145.

You can also request an appointment with an interpreter present!

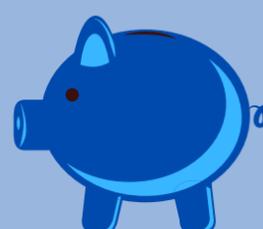

No Referral Needed

There are no referrals needed to have a telehealth appointment with one of our providers. But as always, be sure to check with your insurance carrier if one is necessary.

Call or Video options

You can have your telehealth appointment by telephone or by video. For a phone call, our MNGI providers will call you. If you are having your appointment by video call, a link will be sent to you that is used to access the video call online - no software will need to be downloaded!

Price Quotes

Just because telehealth appointments are new, that doesn't mean you should be surprised by the bill. You can access all the price quotes for telehealth appointments online at www.mngi.com.

Same Care You Love

MNGI Digestive Health continues to be the Smartest Choice in GI Care. You can expect the same care, expertise, and compassion from the providers you know and trust during a telehealth appointment at MNGI. If you have any questions, a MNGI care giver is available by phone to help. Call (612)871-1145.
