About Hemorrhoid Banding

Hemorrhoid banding is a procedure that involves placing a tight band around the hemorrhoid to cut off the blood supply. The information provided below is for one visit, but this procedure typically requires more than one visit to complete.

Billing

Listed below are the specific billing codes and fees associated with hemorrhoid banding. If the provider determines during your appointment that banding is not required, one of the appropriate office visit codes will be billed as shown below.

The actual allowed amount (the amount of the billed charge deemed payable by an insurance plan) for each charge and the amount of your out-of-pocket expenses will depend on your particular insurance plan. It is important to check your individual policy and direct any questions to your insurer to determine coverage and your financial responsibility prior to receiving treatment.
