

## **HALO Procedure Price Quote**

### **About HALO**

During this test, radio frequency ablation is applied to areas of the esophagus that have been previously identified with Barrett's esophagus. Radiofrequency ablation for both dysplastic and non-dysplastic Barrett's esophagus was FDA approved in 2001 and has been commercially available in America for over a decade.

### **Billing**

Listed below are the specific billing codes and associated fees for the HALO procedure. The actual allowed amount (the amount of the billed charge deemed payable by an insurance plan) for each charge and the amount of your out-of-pocket expenses will depend on your particular insurance plan. It is important to check your individual policy and direct any questions to your insurer to determine coverage and your financial responsibility prior to receiving treatment.

<b>Billing Code (CPT Code)</b>	<b>Description</b>	<b>MNGI (Physician Fee)</b>	<b>MNGI Endoscopy* (Facility Fee)</b>
43229	Esophagoscopy HALO Ablation	\$925	\$5,039
43270	EGD HALO Ablation	\$1,057	\$2,512

*\*\*The nature of some procedures may require that the procedure be performed in a hospital. In this case, the facility charge would be determined by the hospital and anesthesia fees.\*\**

### **Anesthesia**

<b>Billing Code (CPT Code)</b>	<b>Description</b>	<b>Charge Amount</b>
00731	For Upper Endoscopy	\$750-\$1,200

*\*\*The charge amount for anesthesia care is dependent on the length of the procedure, age, and health status of the patient.*
