

Hemorrhoid Banding Prep

DAY OF YOUR PROCEDURE:

- There are no dietary restrictions.
- Preparation through laxatives or enemas is not required.
- Continue all medications as usual. If you take a medication to thin your blood (such as Coumadin®, Plavix® or Lovenox®) and have not already discussed this with our office, please call us at 612-871-1145. If you take aspirin, you may continue to do so.

Cancel or Reschedule Your Appointment:

If you are having flu-like symptoms (such as fever, cough, shortness of breath) within 14 days of your appointment please call to reschedule. If you have any newly diagnosed medical condition (like diverticulitis, heart problems, breathing problems), please call our office. If you need to cancel or reschedule for any other reason, call 612-871-1145 at least 72 hours prior to your appointment.
